Please call us at 651-917-3075 with any questions or to place an order.

Sanitizing Eco-friendly Cleaning Solution

The Wysiwash Sanitizer is a hand held, pH neutral, chlorine generator that operates on any standard garden hose. This patented chlorine delivery system used with solid calcium hypochlorite caplets (EPA registered), literally turns water into magic. Wysiwash is a triple threat: economical, eco-friendly and pet safe. It is a powerful fast acting disinfectant that kills bacteria, viruses and fungi. To sanitize an area, simply attach the Wysiwash sanitizer to a garden hose, point and spray. No rinsing is necessary and it is safe for humans and animals to touch surfaces sprayed with Wysiwash right away. Use on all pool surfaces, decks, furniture, bathrooms, showers, playground equipment and any other surface that requires cleaning and sanitizing.

WYS-102	Wysiwash Sanitizer-V	\$135.95

Due to COVID-19 Concerns

Practice Safe Social Distancing

Stay at least 6 feet away from others

Wash hands frequently

Use hand sanitizer frequently

Wear a face covering when possible

Do NOT wear face covering while swimming

Cover your coughs & sneezes

Do not touch your eyes, nose or mouth

Stay at home if you are sick

*According to the CDC, there is no evidence that COVID-19 can be spread to humans through the use of pools, hot tubs or water playgrounds.

What you should know about COVID-19 to protect yourself and others

Know about COVID-19

- Coronavirus (COVID-19) is an illness caused by a virus that can spread from person to person.
- The virus that causes COVID-19 is a new coronavirus that has spread throughout the world.
- COVID-19 symptoms can range from mild (or no symptoms) to severe illness.

Practice social distancing

- Buy groceries and medicine, go to the doctor, and complete banking activities online when possible.
- If you must go in person, stay at least 6 feet away from others and disinfect items you must touch.
- Get deliveries and takeout, and limit in-person contact as much as possible.

Know how COVID-19 is spread

- You can become infected by coming into close contact (about 6 feet or two arm lengths) with a person who has COVID-19. COVID-19 is primarily spread from person to person.
- You can become infected from respiratory droplets when an infected person coughs, sneezes, or talks.
- You may also be able to get it by touching a surface or object that has the virus on it, and then by touching your mouth, nose, or eyes.

Prevent the spread of COVID-19 if you are sick

- Stay home if you are sick, except to get medical care.
- Avoid public transportation, ride-sharing, or taxis.
- Separate yourself from other people and pets in your home.
- There is no specific treatment for COVID-19, but you can seek medical care to help relieve your symptoms.
- If you need medical attention, call ahead.

Protect yourself and others from COVID-19

- There is currently no vaccine to protect against COVID-19. The best way to protect yourself is to avoid being exposed to the virus that causes COVID-19.
- Stay home as much as possible and avoid close contact with others.
- Wear a cloth face covering that covers your nose and mouth in public settings.
- Clean and disinfect frequently touched surfaces.
- Wash your hands often with soap and water for at least 20 seconds, or use an alcohol-based hand sanitizer that contains at least 60% alcohol.

Know your risk for severe illness

- Everyone is at risk of getting COVID-19.
- Older adults and people of any age who have serious underlying medical conditions may be at higher risk for more severe illness.

Symptoms of Coronavirus (COVID-19)

Know the symptoms of COVID-19, which can include the following:

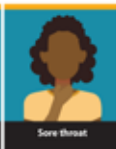

Cough

Fever

Chills

Muscle pain

Shortness of breath or difficulty breathing*

Sore throat

New loss of taste or smell

Symptoms can range from mild to severe illness, and appear 2-14 days after you are exposed to the virus that causes COVID-19.

***Seek medical care immediately if someone has emergency warning signs of COVID-19.**

- Trouble breathing
- Persistent pain or pressure in the chest
- New confusion
- Inability to wake or stay awake
- Bluish lips or face

This list is not all possible symptoms. Please call your medical provider for any other symptoms that are severe or concerning to you.
