Field measurements are required for the product you are ordering. Please provide accurate measurements to eliminate delays or errors in the design and manufacturing. Choose the profile that most clearly matches your pool and provide the measurements. A carpenter's level may be needed in order to determine the slope of the deck. If your deck profile is not similar to any of these diagrams, please sketch your profile on a separate piece of paper and attach along with similar measurements as requested on this form. If you have any questions feel free to contact us for assistance.

Your signature indicates that you have verified your measurements, and the information you have provided is correct. Your lift quote and/or order will be based on the specifications provided.
